**Product Discontinuation: StencilPro Film including Standard, HiRes Orange (SPO) Sheet and Stencil Film**

NEHOC Product Codes: SPO-2, SPO-5, SPO-XL, SPO-XL5, SPO-B2, SPO-B5, SPO-B10, SPO-B100, SPO-STN-2, SPO-STN-5, SPO-STN-B5, SPO-STN-B10, SPO-STN-B100.

Plus older codes EZI-STD-2, EZI-STD-5, EZI-STD-10, EZI-HIR-2, EZI-HIR-5, EZI-STD-XL, EZI-STD-XL5)

Plus Kits: E-102, E-102, E-103, E-201, E-202, E-203, E-301, E-302, E-303, E-304, E-501, E-502

StencilPro Standard, HiRes and the newly released StencilPro Orange (SPO) films are trademarked and manufactured exclusively by Circuitbridge LLC (USA).

The owner and founder of Circuitbridge LLC has passed away, with notice the company has closed effective immediately. The situation has evolved rapidly and unexpectedly, with confirmation from the family of immediate closure without further trade or supply of products.

The proprietary formula of StencilPro film has not been made available, the StencilPro product line has ended with the closer of Circuitbridge LLC.

No further supply or stocks are available with the closure of Circuitbridge LLC. All SPO stocks have been exhausted, NEHOC are unable to meet supply requests. It is recommended the products be immediately removed from all websites and sales channels.

#### Future Supply of Replacement Film

A direct replacement to the formula of SPO film is not available. Similar films of suitable usage do exist in the marketplace, however, are different in construction and application, commercial based in quantity/ size. Considerable modification for EZIscreen is required.

Testing of replacement products is underway to determine suitability, establish new instructions and product usability. Replacement films require a modification to both exposure method (indoor U.V. is preferred over sunlight), with washout is short periods at high pressure not soaking to develop.

#### EZIscreen Customers

The above notice has an immediate effect on recent customers purchasing EZIscreen Kits. NEHOC are currently implementing a system for these customers to be contacted, notified, and supported with transition over to the new films once established. For alternate products, application support and ongoing product support please contact NEHOC.

#### Replacement Product Range

Publication of the replacement films shall be displayed online in due course at [www.EZIscreen.com](http://www.EZIscreen.com)

#### EZIscreen Accessories & Parts

Artwork transparencies, accessories and supplies will remain available as stocked items, with a view to continue when a replacement film is implemented.
